

LAKSHAY PAHWA

Full-Stack Developer | React.js • Node.js • MongoDB • MySQL

lakshaypahwa47@gmail.com | +91-6396339806 | github.com/pahwajii | linkedin.com/in/lakshay-pahwa-a45991251

EDUCATION

B.Tech in Computer Science & Engineering

Bundelkhand Institute of Engineering & Technology (BIET), Jhansi

2022 – 2026

CGPA: 8.19/10.00

TECHNICAL SKILLS

Frontend React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery, AJAX

Backend Node.js, Express.js, REST API Design, MVC Architecture, Webhooks

Databases MongoDB, MySQL, PostgreSQL, Firebase Firestore, Redis

Tools Git, Postman, Jest, Docker, Vercel, Render, Browser DevTools

Practices Agile/Scrum, Code Reviews, Performance Optimization, Unit Testing

WORK EXPERIENCE

SDE Intern — Hanabi Technologies

Dec 2025 – Feb 2026

- Built and deployed 6+ RESTful APIs consumed by React-based client apps; validated endpoint behavior across full request-response cycles using Postman.
- Integrated OpenAI content-moderation API (video, audio, text) achieving ~95% classification accuracy with robust error handling and retry logic.
- Authored API contracts and 15+ Jest unit/integration test scenarios covering failure paths, supporting CI workflows and continuous code quality standards.

Developer Intern — Good Dopamine Technologies Pvt. Ltd.

Nov 2025 – Dec 2025

- Engineered Node.js/Express APIs following MVC architecture for a collaborative video-editor; participated in design reviews and agile sprint planning.
- Implemented RBAC permission handling (3 user roles) with detailed access-control logic; maintained documentation to enable team-wide knowledge sharing.

SDE Intern — Veridia.io

Sept 2025 – Oct 2025

- Debugged MySQL/MongoDB query patterns and restructured indexing strategies, reducing average query execution time by ~20%.
- Identified API performance bottlenecks via structured profiling; applied Redis caching to cut response time by ~15% and documented scalability recommendations.

PROJECTS

Research Paper Reading Tracker

Feb 2026

React | TypeScript | Node.js | Express | MySQL | MongoDB | JWT | Recharts | Vercel/Render

- Full-stack web app with React/TypeScript frontend (Recharts analytics: funnel, scatter, stacked bar) and Node.js/Express REST backend; deployed on Vercel + Render.
- Implemented JWT auth with per-user data isolation; validated all endpoints in Postman with structured test cases covering auth, CRUD, analytics, and edge cases.

Post-It — Real-Time Social Media Platform

Sept 2025

Node.js | Express.js | MySQL | MongoDB | Socket.io | jQuery | AJAX | HTML/CSS

- Built a full-stack social platform with real-time WebSocket messaging (Socket.io), REST API backend, and jQuery/AJAX frontend for zero-reload feed and notification updates.
- Designed RESTful URL routing and dual MongoDB/MySQL data models; applied BFS graph traversal for social connection recommendations.

Subscription-based Payment System (Razorpay)

Jan 2026

Node.js | MySQL | Razorpay API | Webhooks | Jest | OOP

- Webhook-based payment reconciliation covering full subscription lifecycle; reduced failed-transaction fallback by ~40% via Regex-based event classification and retry logic.
- Documented 10+ API routes with edge-case test decisions; maintained shared knowledge base of failure modes, improving team debugging speed across sprint cycles.

ACHIEVEMENTS & CERTIFICATIONS

- GATE 2026 Qualified** **LeetCode**: Rating 1817 (Top 6%), 300+ problems, strong DSA **CodeChef**: 3★, Rating 1654
- TCS CodeVita S13** – Global Rank 2028 **Oracle Cloud 2025** – Data Science Professional & AI Foundations Associate
- Secretary, T&P Cell** – Led placement drives & stakeholder communication for 200+ students
